Lesson 3 of 5

QUALITY TRAFFIC

Recreational Players. Live Players. Not Grinders.

- **They come for the festivals:** schedules, results and travel, not for rakeback tables.
- **They play for fun** and stay longer: better lifetime value for a room.
- **They travel to live events:** the natural audience for satellites.

WHO WE WRITE FOR

Live Festival Players — Core
They plan trips around festivals: schedules, venues and results.

Recreational Online Players — Core
They play for fun, mostly on mobile, after work and at weekends.

Hobby and Home-Game Players — Growing
They learn the game and look for their first live event.

~~Professional Grinders~~ — Not Our Focus
Rakeback deals and tracking tools are not our game.
